SUMMARY OF CALL:

Mr. Blount, representing S.J. Nudelman, called re EPA Region 10 TSCA Case 1088-09-33-2615

He indicated that he had tried to call Debra Hilsman but learned she was on vacation.

He had been requested by his clients to call and ask EPA if it were possible to stop the actions required under the signed Consent Agreement and Final Order on this case. He stated that General Electric had been hired by his client to dispose of the PCB-contaminated transformer that was the subject of this case and that the General Electric employee had advised S.J. Nudelman that the transformer could not possibly contain PCBs and that his client wanted to take another test. Prior testing by S.J. Nudelman has already established that this transformer is PCB-contaminated. I advised Mr. Blount that I could not advise him in lieu of Ms. Hilsman but did explain that I seriously doubted that, given the documentation that already exists that the transformer was PCB-contaminated, and given the fact that a signed Order already exists, that EPA would be willing to change the terms of the Consent Agreement and Final Order. I advised that I would refer the matter to Ms. Hilsman for her consideration upon return.
